# REHAN MUJAWAR

Fullstack Developer

## SUMMARY

Full Stack Developer with hands-on experience in building and deploying fast, scalable, and reliable web applications. Strong in React, modern UI libraries, and backend development. Completed 7+ major projects, including a Digital Voting System, College Website, and an AI Assistant, showing solid skills in both frontend and backend. Also experienced in web security, ethical hacking, and vulnerability testing with tools like Nmap, Burp Suite, and Wireshark. Focused on writing clean, secure, and easy-to-maintain code, while exploring smart solutions using AI and modern web technologies.

## PROJECTS

### Portfolio

Using react framework sigal page web application responsive and user friendly checkout on bio link

<https://rehan07.netlify.app>
